

# MOSAICO

Management, Orchestration and Supervision of AI-agent  
Communities for reliable AI in software engineering

## Transforming Software Engineering with AI Collaboration

MOSAICO is a European research project revolutionizing software engineering by integrating AI-powered agents into the development lifecycle. Our innovative platform will enable developers to **collaborate with AI**, automating key processes to improve **efficiency, security, and software quality**.

### KEY FEATURES

#### Collaborative AI Platform

Seamless integration of AI agents into software development workflows.

#### AI-Powered Development Tools

Automating coding, testing, and deployment with intelligent AI agents.

#### AI-Agent Communication Protocol

Enabling real-time, reliable collaboration between multiple AI tools.

#### Ethical & Responsible AI Governance

Supporting long-term adoption and industry impact

#### Open-Source & Long-Term Adoption

A sustainable platform fostering innovation in software engineering.
